Response to Amendment

1. Applicant's arguments/remarks filed on 8/30/2004 regarding claims 15, 18, 21-22, 24-25, 28, 31, 34, 46 have been considered. Claims 1-14, 16-17, 19-20, 23, 26-27, 29-30, 32-33, 35 have been canceled by the Applicant.

EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

The present application relates to processing video and audio streams by the interchange unit of a receiving and signal separating device in a digital broadcasting system, including the unique steps of performing the method of "change the original packet identifier of a first multiplexed data packet to a unique packet identifier when the original packet identifier of the first multiplexed data packet is identical to the original packet identifier of a second multiplexed data packet, and to rewrite the unique packet identifier of the first multiplexed data packet back to the original packet identifier of the first multiplexed data packet prior to the separating device producing the intermediate data stream." The closet prior art, Takashimizu (US Publication 2002/0159485), discloses a digital broadcasting signal receiving/recording/reproducing apparatus that performs the method of directly recording/reproducing a digital broadcasting signal without executing the complicated program seeking operation. However, Takashimizu fails to anticipate or render obvious the above quoted limitations of the present application. This renders it allowable.
